

Camilla House Care Home

embrace
life . change . choice

19 Grange Terrace, Edinburgh, EH9 2LF

Welcome to Camilla House Care Home

We believe that every individual irrespective of their physical, social or psychological condition have the right to be treated with dignity and respect and to be supported to maintain choice and control over their own lives

Camilla House Care Home provides residential, nursing and dementia care for older people, as well as palliative and respite care. We are committed to maximising the personal choice and independence of everyone who stays with us.

What it's like to live here

We enable people to maintain lifestyles that are as similar as possible to those enjoyed at home. We encourage regular interaction with the local community, including contact with friends, family and local groups. We encourage friends and family to be involved through regular visits and participation at special activities, events and open days.

We encourage people to become involved with the running of the home and developing activities and events. Residents can choose to be involved in regular social activities including bingo, live music, singing, reminiscence sessions, exercise classes and alternative therapies. We also have regular visits from local churches.

Our experienced and qualified nursing staff are supported by a team of care assistants selected for their skills and experience in providing nursing, residential and dementia care.

Meals are an important part of the day at Camilla House. Our experienced catering staff prepare a varied menu of fresh home cooked food every day and we cater for individual likes and dislikes from a cultural, religious or choice perspective.

Putting the individual first

We aim to empower residents to make their own choices about how they live their lives. We believe that every individual irrespective of their physical, social or psychological condition has the right to be treated with dignity and respect and supported to maintain choice and control over their own lives.

We understand that people bring with them a life story of achievements, events and life experiences. We know that this information is essential to ensure a tailored care package for each individual's specific needs, particularly for those with memory loss.

We ensure that our person-centred assessments are all tailored to the whole person and we will look at what people can do, not just what they need assistance with. Most importantly we ensure that the individual themselves and their loved ones help us to put together a bespoke plan of care. We appreciate how difficult the decision is to move into permanent or even short stay care and we aim to make this transition as easy as possible.

Our facilities

Camilla House Care Home offers a variety of comfortable bedrooms. There are 33 single bedrooms, six of which have ensuite shower rooms and three with ensuite toilets. We also have six large bedrooms for single occupancy or can accommodate couples, three of which have en-suite toilets.

All rooms are tastefully decorated to a high standard and people are encouraged to bring personal possessions with them to make their room feel more familiar and homely. We have three lounge and dining rooms where residents can socialise and relax. We also have a hairdressing salon and a courtyard garden where residents can take part in outdoor activities during the summer months.

We provide occupational therapy, physiotherapy, speech therapy and nutritional support and advice. Dentists and GPs also visit Camilla House regularly.

Camilla House Care Home is a Victorian building that sits at the foot of Blackford Hill in the tranquil Grange area of Edinburgh. We are located in close proximity to convenient bus connections to Edinburgh City Centre. Camilla House is also very close to local shops, Edinburgh Castle, the Museum of Scotland and Princess Street Gardens.

Young people

Embrace is a leading independent provider of health and social care across the UK. We provide residential, educational and supported living services which enable people to have control over their own lives and to live as independently as possible.

We support young people and adults who have learning disabilities, autism, brain injuries, mental health problems, neurodegenerative disorders and special educational needs through our schools, resource centres, residential and supported living services.

Adults

For older people, we provide dementia, nursing, respite, palliative and end of life care through our residential services. We work in a person centred way to identify individual goals and ambitions, focusing on enablement and the promotion of personal dignity.

Older people

Our vision

We believe in making a difference. We know that it's often the small things that make a big difference to the lives of the people that we support – as well as their families and friends. Together we look forward to discovering their stories, listening to their dreams and supporting them to ensure they have something to look forward to – each and every day. We deliver the highest quality of support that we would expect for our own loved ones.
